### TASTING

- October 8-10, 2020
- at the Doemens Academy in Graefelfing near Munich
- 74 tasters (2019: 145)

Due to the strict hygiene requirements and travel restrictions, the jury was only half the size of 2019. This year, the majority of the experts came from Germany, plus Austria, Switzerland, Italy, Finland, Sweden and Liechtenstein.

### For the first time for three days

For the first time it was tasted over three days. The team of experts was particularly challenged this year. Compared to 2019: around half of the experts had to taste almost as many beers. Therefore, the tasting lasted a day longer than in previous years.
